I seem to find Studio Ghibli movies hardly anywhere, and a few sources I find all dubs because of Ghibli's studio's core status. docs.google.com/file/d... Is there a working site if I could watch it in English dub or subPage 2 16 comments Where can I find this movie? I looked and searched for a copy of this movie because I haven't seen it in 13 years. I would get my hands on it so I could show my wife because she didn't see him. 11 comments 3 comments Congratulations to everyone! Today I saw Spirited Away in its subtitle form for the first time (it was also in theaters mind you, thanks to Ghibli fest 2018). For a bit of context I grew up watching Ghibli movies with my mom, called more. It wasn't my first time watching Spirited Away in theaters (I watched it last year), but it was my first time seeing it subbed. I love both formats the same, but called over the version takes place in my heart (like all Ghibli movies). My question is; Why are the scenarios different? I've noticed that a lot of the lines from the subbed versions are different, don't exist, etc. in the duplicated version, and tee-vice versa. I don't think it's that hard to translate it verbatim, or even closer than what I remember. Then, of course, with the scripts different, the plot was different too, as, as Chihiro did not know, Haku was a dragon until the scene in the boiler room. It's not soul-crushingly different, but it still threw me across the loop nonetheless. There were some other things I noticed, but they don't stick out the same way as this change. Either way, dubbed or subbed Spirited Away is a great movie, like all the work of studio Ghibli. I just wanted to get some insight and discuss why they differ. Thank you! I want to show my friends Spirited away for a few days and I was wondering what you guys think is the best way to show it.dubbed, subtitled, favorite high-quality streaming site? Page 2 7 comments I saw some posts here from about 3y ago that say Studio Ghibli is considering allowing it on streaming apps. But I can't find any recent developments. I would love to gt to see it again without having to buy another drive, but I struggled to find any leads. Does anyone have more information? Page 2 6 comments I've been looking, but I can't find it anywhere. I know some people have said that the studio has problems with streaming services, but I wonder if anyone knows about a place where I can watch it. I'd just go to the store and buy a DVD, but there's a big storm where I am and it's not safe to drive. Thank you all!! Page 2 26 comments spirited away full movie english sub reddit
